An institution requiring for the effective carrying on of its scientific or educational activities the use of live dogs and cats may apply to the State Board of Health for a license to obtain animals from the establishment maintained and operated by public funds for the confinement, care and disposal of animals seized by public authority, commonly called the "dog pound". If the State Board of Health finds that the institution, by reason of its ethical standards, its personnel, its facilities and the uses it proposes to make of animals is a fit and proper agency to receive a license, and that the public interest would be served by the issuance of a license to the institution, it shall issue a license to the institution, subject to the restrictions and limitations hereinafter provided.
