

[RCWs](#) > [Title 16](#) > [Chapter 16.52](#) > [Section 16.52.220](#)[16.52.210](#) << [16.52.220](#) >> [16.52.225](#)**RCW 16.52.220****Transfers of mammals for research—Certification requirements—Pet animals.**

(1) All transfers of mammals, other than rats and mice bred for use in research and livestock, to research institutions in this state, whether by sale or otherwise, shall conform with federal laws and, except as to those animals obtained from a source outside the United States, shall be accompanied by one of the following written certifications, dated and signed under penalty of perjury:

(a) Breeder certification: A written statement certifying that the person signing the certification is a United States department of agriculture-licensed class A dealer whose business license in the state of Washington includes only those animals that the dealer breeds and raises as a closed or stable colony and those animals that the dealer acquires for the sole purpose of maintaining or enhancing the dealer's breeding colony, that the animal being sold is one of those animals, and that the person signing the certification is authorized to do so. The certification shall also include an identifying number for the dealer, such as a business license number.

(b) True owner certification: A written statement certifying that the animal being transferred is owned by the person signing the certification, and that the person signing the certification either (i) has no personal knowledge or reason to believe that the animal is a pet animal, or (ii) consents to having the animal used for research at a research institution. The certification shall also state the date that the owner obtained the animal, and the person or other source from whom it was obtained. The certification shall also include an identifying number for the person signing the certification, such as a drivers' license number or business license number. The certifications signed by or on behalf of a humane society, animal control agency, or animal shelter need not contain a statement that the society, agency, or shelter owns the animal, but shall state that the animal has been in the possession of the society, agency, or shelter for the minimum period required by law that entitles it to legally dispose of the animal.

(2) In addition to the foregoing certification, all research institutions in this state shall open at the time a dog or cat is transferred to it a file that contains the following information for each dog or cat transferred to the institution:

- (a) All information required by federal law;
- (b) The certification required by this section; and
- (c) A brief description of the dog or cat (e.g. breed, color, sex, any identifying characteristics), and a photograph of the dog or cat.

The brief description may be contained in the written certification.

These files shall be maintained and open for public inspection for a period of at least two years from the date of acquisition of the animal.

(3) All research institutions in this state shall, within one hundred eighty days of May 12, 1989, adopt and operate under written policies governing the acquisition of animals to be used in biomedical or product research at that institution. The written policies shall be binding on all employees, agents, or contractors of the institution. These policies must contain, at a minimum, the following provisions:

(a) Animals shall be acquired in accordance with the federal animal welfare act, public health service policy, and other applicable statutes and regulations;

(b) No research may be conducted on a pet animal without the written permission of the pet animal's owner;

(c) Any animal acquired by the institution that is determined to be a pet animal shall be returned to its legal owner, unless the institution has the owner's written permission to retain the

animal; and

(d) A person at the institution shall be designated to have the responsibility for investigating any facts supporting the possibility that an animal in the institution's possession may be a pet animal, including any inquiries from citizens regarding their pets. This person shall devise and insure implementation of procedures to inform inquiring citizens of their right to prompt review of the relevant files required to be kept by the institution for animals obtained under subsection (2) of this section, and shall be responsible for facilitating the rapid return of any animal determined to be a pet animal to the legal owner who has not given the institution permission to have the animal or transferred ownership of it to the institution.

(4) For the purposes of this section, "research institution" means any facility licensed by the United States department of agriculture to use animals in biomedical or product research.

[1989 c 359 § 3.]

NOTES:

Application of consumer protection act: RCW 19.86.145.
